

Dr. Christopher Ablenas is a senior evaluator in the Biologic and Radiopharmaceutical Drugs Directorate at Health Canada.

He performs CMC submission review and coordinates the pre-market laboratory testing for biotechnology-derived products such as monoclonal antibodies, hormones, enzymes, and cytokines, which are reviewed by the biotherapeutics quality divisions in the Centre for Oncology, Radiopharmaceuticals and Research and the Centre for Blood, Blood Products, and Biotherapeutics.

Dr. Chris Ablenas

SENIOR EVALUATOR, CBBB, BRDD,
