

Sally Prawdzik

Health Canada

Acting Director of the Bureau
of Policy and International
Programs, Medical Devices
Directorate

Sally Prawdzik is the Acting Director of the Bureau of Policy and International Programs within Health Canada's Medical Devices Directorate. She leads the team responsible for medical device policy development and Health Canada's engagement in medical device-related international programs, such as the International Medical Device Regulators Forum.

Before joining Health Canada in 2019, Sally worked in several senior regulatory and quality positions in the medical device industry, as well as in a start-up pharmaceutical environment.
