

Erin Skuce is the Director of the Medical Devices Compliance Program (MDCP) at Health Canada's Regulatory Operations and Enforcement Branch. She oversees post-market compliance and enforcement, recall reporting, inspections, and medical device establishment licensing.

Erin holds an Honours Bachelor of Biomedical Science from the University of Guelph. With over 22 years in public service, she has experience in policy, project and program management, including roles in the Office of Sustainable Development, the Canadian Strategy for Cancer Control, and the Good Guidance Practices and Good Review Practices Initiatives.

She has held various inspection and management roles in the Controlled Substances, Consumer Product Safety, and Cannabis inspection programs. Before joining the MDCP as Director in 2024, she was the Director of the Strategic Program Support Division within the Cannabis Directorate and the National Director of the Consumer Product Safety Inspection Program.
